Notice on the revision of dividend forecast

The Board of Directors of SUNCORPORATION resolved at its meeting on 21 October 2022 to revise the annual dividend forecast for the current financial year as follows.

1. Reason for the revision of the dividend forecast

The Company's basic policy on dividends is to actively and flexibly pay dividends in line with business performance, taking into consideration the medium- to long-term free cash flow trend and the dividend payout ratio, in order to develop business for the future, strengthen the management foundation and realise medium- to long-term corporate value enhancement.

For the year under review, the interim dividend per share for the year under review will not be paid and the year-end dividend for the year under review will be undecided, as it is difficult to reasonably calculate the impact on the Company's performance due to the continuing uncertainty regarding the prospects for the resolution of the semi-conductor shortage.

2. Details of revision

	End of second quarter	End of Term	Total Amount
