

[Press Release]

Announcement of a Partnership Agreement with Sixgill Ltd.

SUNCORPORATION (Nagoya, Aichi Prefecture, President Ryusuke Utsumi, Code No. of TSE Standard: 6736) has entered into a strategic sales partnership agreement for the Japanese market with Sixgill Ltd, an Israeli global leader in threat intelligence.

Sixgill's threat intelligence solution, Cybersixgill, utilizes proprietary algorithms to automatically collect Deep Web and Dark Web content at high performance to help organizations detect and protect against phishing, data leakage, fraud, malware and vulnerability exploitation to strengthen cyber resilience and minimize risk exposure in real time. The company's threat intelligence solutions are used by global enterprises, financial services firms, managed security service providers (MSSPs), governments, and law enforcement agencies.
